

General Emergency Plan update 2026

1) Individual duties

- Polar abandon duties

All the polar abandon duties column has been updated according to the latest version of polar duties. Name of the column replaced by “polar abandon” instead of “polar survival scheme”

Old version

POLAR SURVIVAL SCHEME	
	
OVERALL COMMAND TEAM	
OVERALL COMMAND TEAM	

New version

POLAR ABANDON	
	
OVERALL COMMAND TEAM VILLAGE 8 SUPERVISOR	
OVERALL COMMAND TEAM VILLAGE 7 SUPERVISOR	

- Individual duties

- Crew assembly station controller A and B (433 and 432) General alarm duties swaped on emergency board

432 should be crew assembly station B subleader

433 should be crew assembly station A subleader

Old version

----------	--------------------	---	---	-------------------------	------------

- Safety number 425 is on LB 3 list in Fidelio

Old

A	LIFEBOAT N°1 (STB)	-	-	STAIRCASE C GUIDE	425
----------	--------------------	---	---	-------------------	------------

New

A	LIFEBOAT N°3 (STB)	-	-	STAIRCASE C GUIDE	425
----------	--------------------	---	---	-------------------	------------

- Safety number 916 port manning duty missing a letter

Old version

STAIRCASE GUIDE	916
-----------------	------------

New version

STAIRCASE GUIDE C	916
-------------------	------------

- Safety Number 931 to 935 are deleted as we don't need that much additional safety numbers. Scientist are always on the PAX list.

- Safety number 920 is renamed “Permanent additional crew” and not counted as additional. Like this with have 210 SN crew from 101 to 920 included and 10 additional SN from 921 to 930.

2) Lifeboat repartition table

- 315 moved from LB 3 to LB 1 as per Fidelio list
- 129 moved from LB 4 to LB 3 as per Fidelio list
- 425 moved from LB 1 to LB3 as per Fidelio list
- Stars added to identify more easily the additional SN. POB detailed for better comprehension.

Notes added to explain that additional SN are not taken in account in crew member total

- Number of people at assembly station adjusted to fit with the POB
- SN 931 to 935 removed

*Additional crew may be assigned in accordance with maximum persons on board limitation

4) Integration of Polar abandon organization diagram

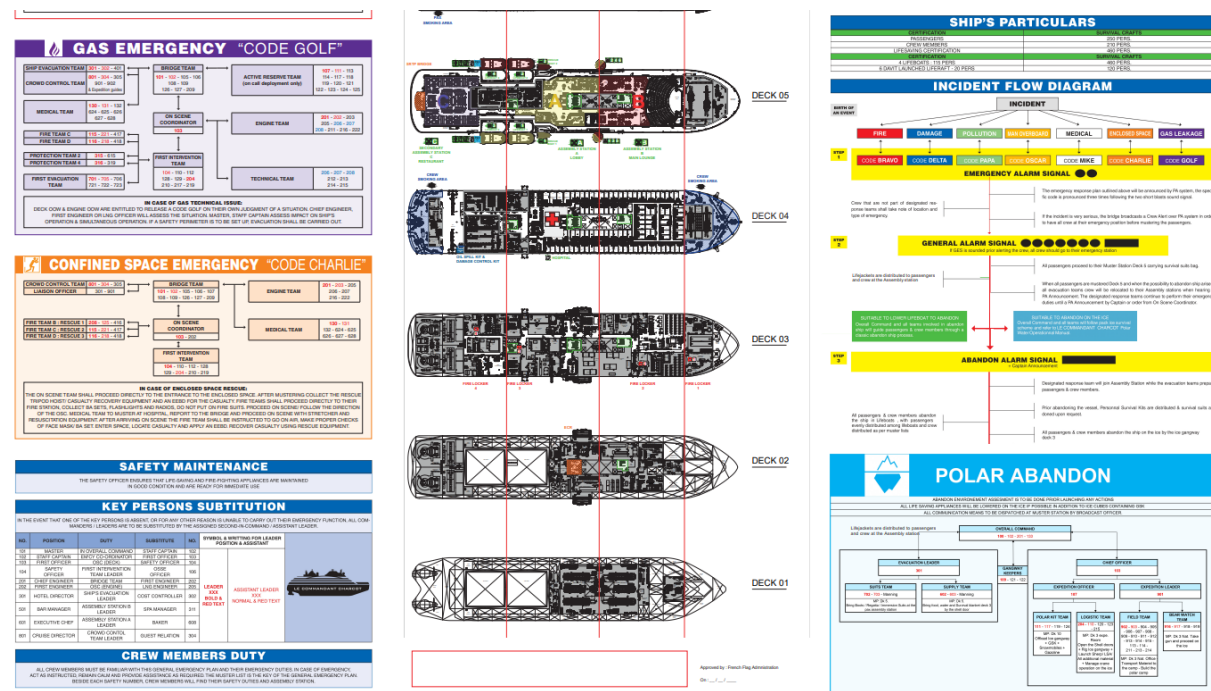

Helicopter emergencies table is deleted and replaced by safety maintenance / key personnel substitution / crew members duty.

Ship's particulars and incident flow diagram are moved up and polar abandon organization is integrated.

Old version

New version

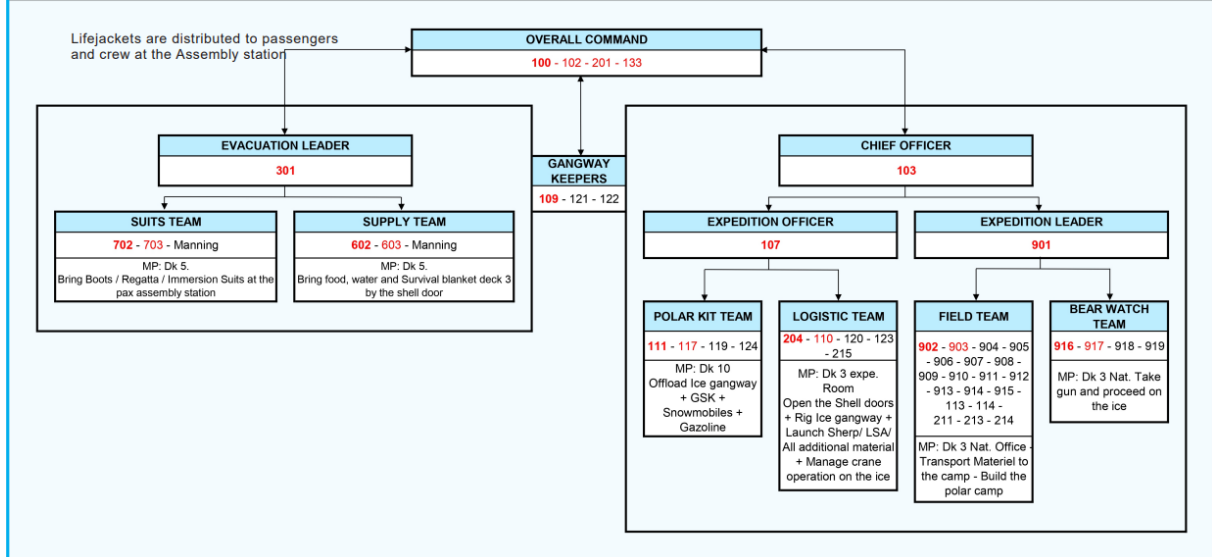

POLAR ABANDON

ABANDON ENVIRONMENT ASSESMENT IS TO BE DONE PRIOR LAUNCHING ANY ACTIONS

ALL LIFE SAVING APPLIANCES WILL BE LOWERED ON THE ICE IF POSSIBLE IN ADDITION TO ICE CUBES CONTAINING GSK

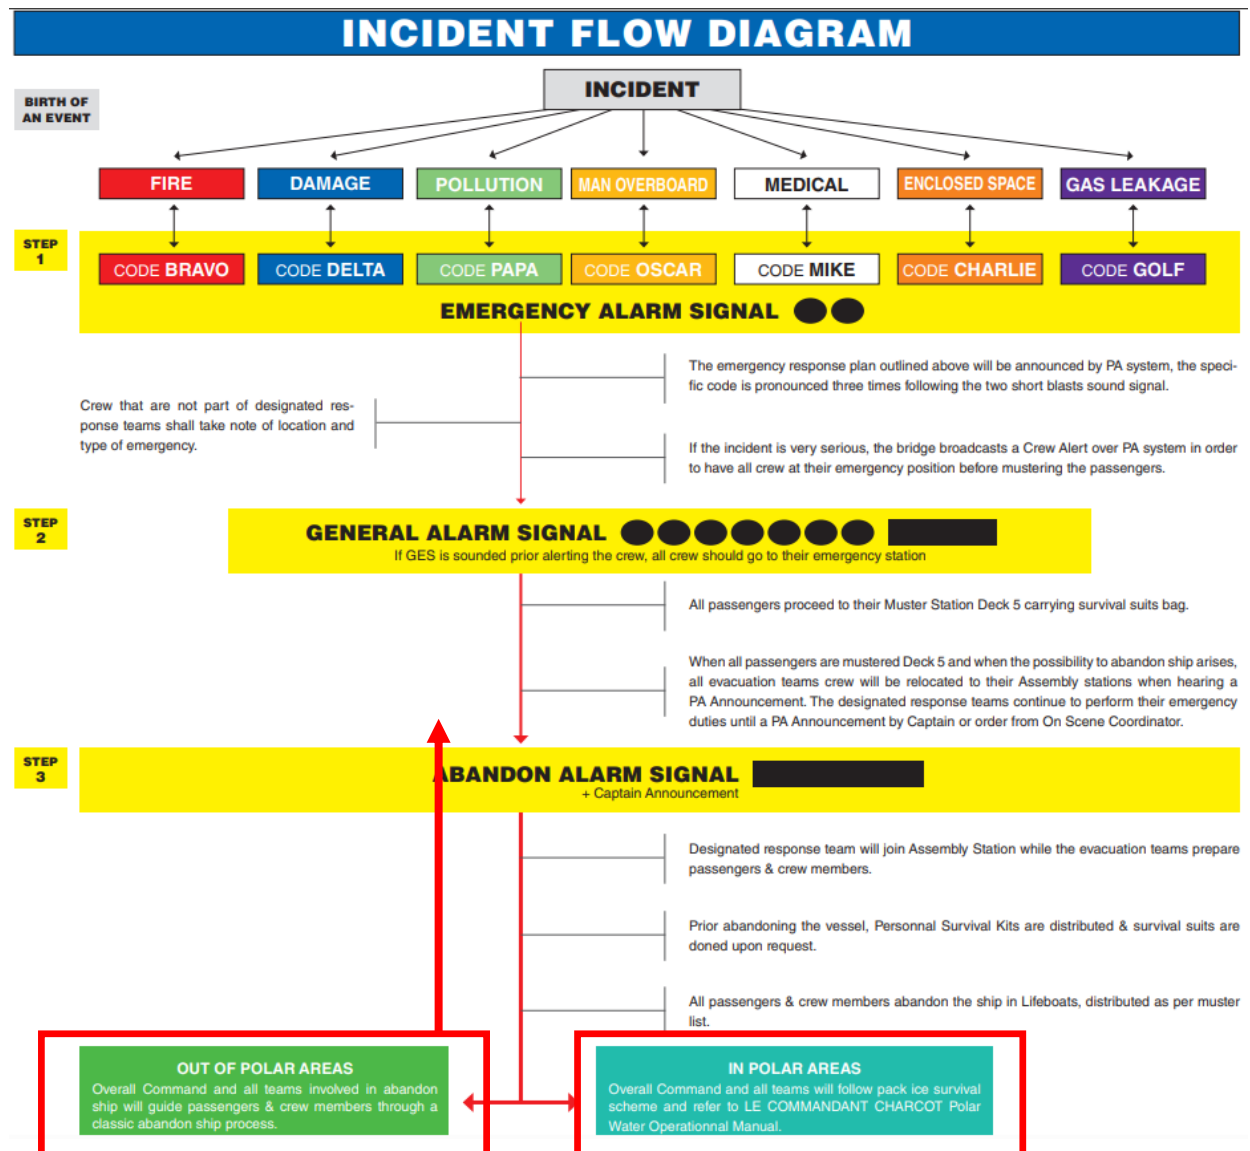

ALL COMMUNICATION MEANS TO BE DISPATCHED AT MUSTER STATION BY BROADCAST OFFICER.

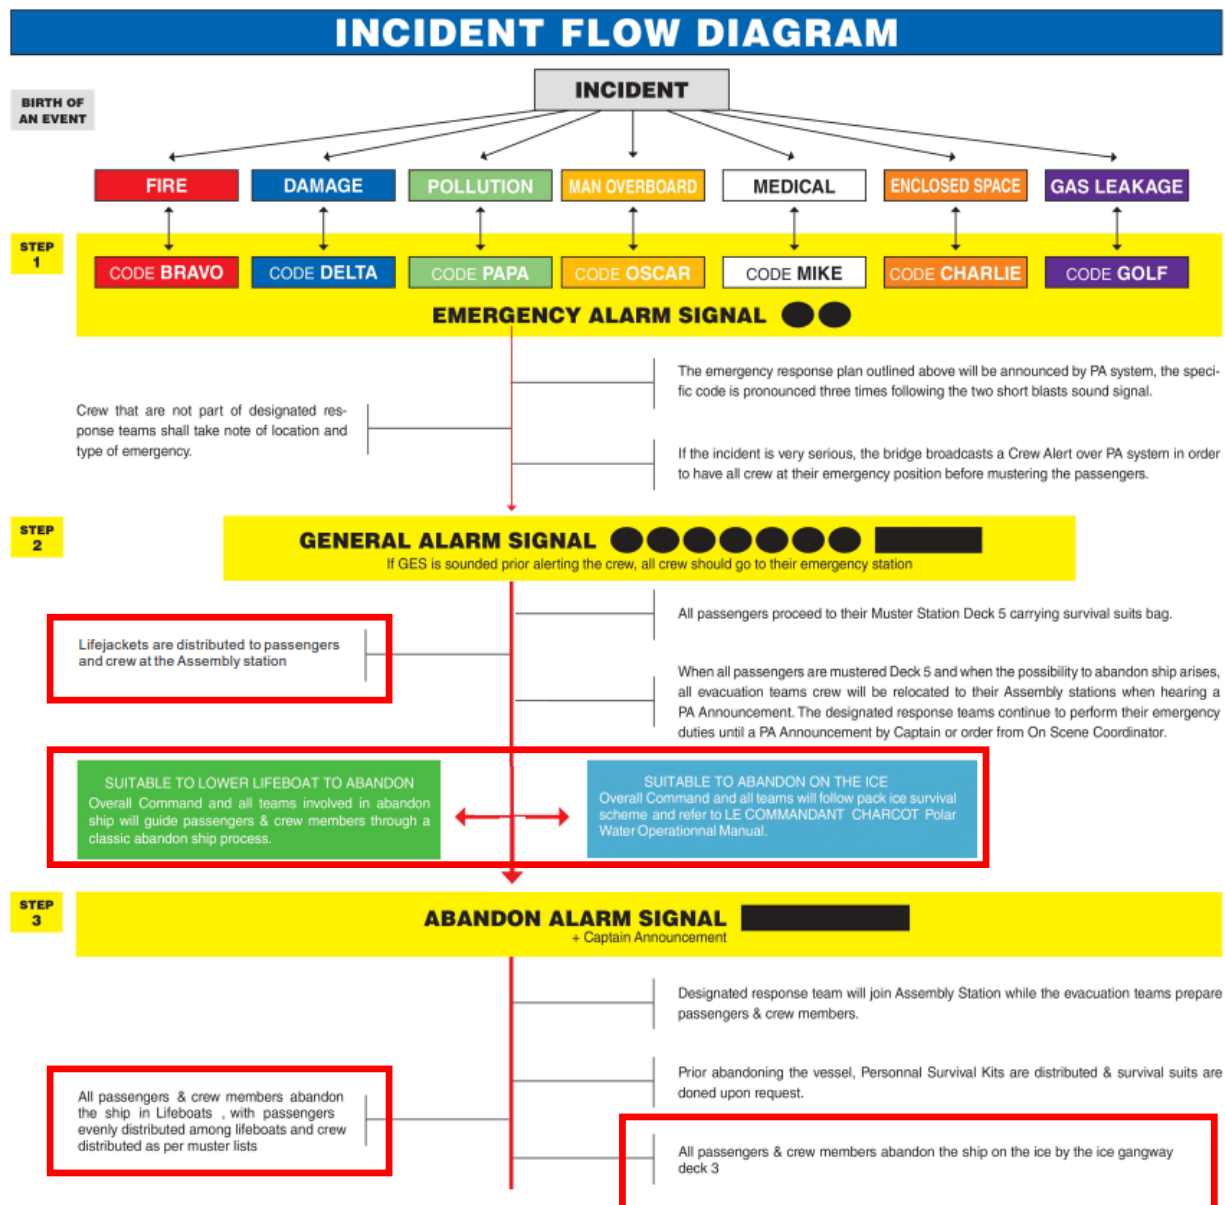

5) Modification of incident flow diagram

- Green & blue square “in” and “out polar waters” replaced by “suitable to lower lifeboats to abandon” and “suitable to abandon on the ice”
- The squares are moved up before Abandon ship signal as it's when the decision is taken to perform polar abandon or not
- Added text on distribution of lifejacket between GA & Abandon signal
- Added text on abandon in lifeboats or ice gangway
